

TRAFFIC WAND

FEATURES

Attach our bright orange wand to the 4AA eLED CPO, 4AA Xenon, Nitex, 3AA, 2AA or Super Q eLED bezel for a traffic directing solution. It is lightweight and bright, providing an effective method for emergency signaling in any condition. Our wand is also unique in that it renders a red filtered beam from an opening at the top, allowing you maximum precision when directing traffic.

Traffic Wand Dimensions: 7.6 (19,3) x 1.63 (4,1) in (cm)

PART # 14877- Traffic Wand (Fits 4AA & NITEX Only) - Does not include flashlight
14884- Traffic Wand (Fits 2AA, 3AA CPO, 4AA CPO & 4AA Zoom Only) - Does not include flashlight

BELT POUCH

FEATURES

This nylon belt pouch is perfect for keeping the 4AA or 3AA light ready on your belt. Rip open flap gives easy access and seamed edges ensure long lasting quality.

Fits all 4AA and 3AA model flashlights

PART # 14816- Nylon Belt Pouch

RIGHT ANGLE KIT

FEATURES

Enables hands-free lighting when clipped to clothing with nylon pocket clip or snap clip. Also allows light beam to be directed at work area when light is laid down on a nearby work surface. Fits 4AA Xenon and Zoom lights.

PART # 14845- Right Angle Head Kit

METAL POCKET CLIP

FEATURES

Tough Stainless Steel pocket clip attaches to any 4AA or 3AA work light.

PART # 14856- Metal Pocket Clip

HELMET CLIPS

UNIVERSAL **HELMET CLIP**

FEATURES

Attach a high intensity 4AA, 3AA or 2AA light to any hard hat or fire helmet for hands-free illumination.

- Adapters included for slotted, vertical sided and brim hard hats
- Locks in any position for perfect alignment
- Made from non-conductive glass filled nylon for strength
- Also clamps to hard hat ear protectors

PART # 14819- Universal Helmet Clip

STAINLESS STEEL **HELMET CLIP**

FEATURES

Perfect for fire helmets and other wide brim safety helmets, this stainless steel clip holds the 4AA, 3AA or 2AA light at any angle for hands-free illumination.

- Large knob allows adjustment to proper angle
- Heavy gauge stainless steel construction
- Clamps to hat brims up to 3/8 in (0,9 cm) thick

PART # 14818- Stainless Steel Adjustable Helmet Clip, 4AA/3AA/2AA

RYLEE® **HELMET CLIP**

FEATURES

Using this clip, the versatile 4AA, 3AA or 2AA lights can be attached above or below the brim of any American classic style wide brim fire helmet for hands-free lighting.

- Protective clamping plate prevents damage to rim of helmet
- Does not interfere with Goggles or Face Shield

PART # 14851- Rylee Clip

NITEX PRO **HELMET CLIP**

FEATURES

The Nitex Pro helmet clip can be attached to American classic or narrow brim fire helmets as well as hard hats for hands-free illumination.

- Made from glass filled nylon to withstand high temperatures
- Clip can be easily adjusted in multiple directions for optimal beam placement
- Designed for quick removal of the Nitex Pro flashlight for use as a hand-held light

PART # 12842- Nitex Pro GFN Traditional Helmet Clip
