

LÖSOMAT Cordless Torque Wrench

90 - 4.000 N·m

Cordless torque wrench - range up to 4,000 N·m

Bolting operations can be implemented independently and flexibly with the LÖSOMAT Cordless Torque Wrench.

It is the first of its kind which can generate precise torques up to 4,000 N·m without slip coupling and impact mechanism.

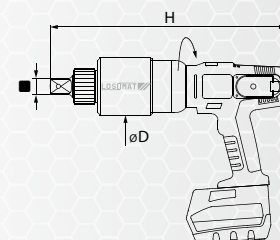

Tough applications at great heights or in

confined spaces are made simple. There is no need for power cables, hydraulic hoses or compressed air hoses due to the powerful lithium ion battery.

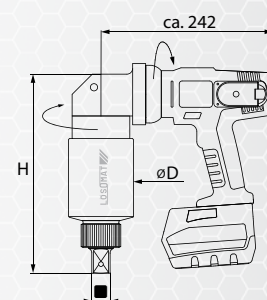

Technical Data
