

Welding Grasshopper

Model: 410

- Grounding device to prevent arcing
- Grounding Bolt has adequate length for two grounds, permitting brother-in-law welding
- Optional Long Bolt to use with clamps, or on tie-ins and anomaly digs
- Nylon-insulated magnets prevent arcing at contact point

Grinder Holder

Model: 415

- Holds 2 grinder holders up to 9" and a Rheostat box
- 2 mounting options:
 - 1 3/8" Pipe Stand Mount fits all major manufacturer's stands
 - 4 powerful magnets swivel to accommodate flat surfaces or pipe 3" and above
- Portable; integrated easy-carry handle
- Additional tools held with a powerful magnet mounted to the frame

WELDING TOOLS

Sawyer has the Welding Tools welders need whether on the pipeline or in a fab shop.

420-S

420

Spacing Tool

Models: 420-S / 420

- Quickly obtain an exact weld gap
- Wedge thickness
 - 420-S: 3/16"
 - 420: 1/4"
- Tapers to a chiseled point
- Special process hardens steel to restrict bend or mushroom

Canadian Spacing Tool

Models: 421-S / 421

- All the specifications of the Spacing Tool with a double-sided chiseled point
- Wedge thickness
 - 421-S: 1/4"
 - 421: 1/4"

421-S

421

Welding Rod Bucket

Model: 412

- 4.5 gallon, stainless steel bucket
- Holds electrodes and stubs
- 4 pre-formed partitions keep rods separated for easy access
- Strong construction

Hi-Lo Gauge

Model: 430

- Imperial or metric models
- Precision measurement of the weld gap
- Quick and easy to use; measurements in seconds
- Measures inside hi-lo; can be left in place while making adjustments with the Chain Clamp

Welders 3rd Hand

Model: 411

- Use with all 1-1/2", 2", 3" and 4" pipe and fittings
- Eliminates the expense of a helper
- Increases pipe lineup accuracy
- Easily aligns the welding gap

Locking Boomer

- For use with coupon cutters, all saddle beveling machines
- Great for welding bottle tie downs
- Available with additional chain to accommodate any size job

Welding Tent Frame

Model: 450

- Durable; manufactured from high quality steel
- Flame-proof covers not standard
- Available in a range of sizes
- Setup and dismantle in a matter of seconds
- Minimum Order Quantity: 150 within USA

Tool Boxes

- Built with quality steel
- Choice of a range of colors; powder-coated for durability
- Range of sizes available
- Customized to fit: EZ Clamps, Chain Clamps, Jack and Jill Stands, Excalibur or any other products requiring secure storage

INTERNAL CLAMPS

Sawyer Internal Clamps are custom-built for your application for pipe sizes 6" and larger.
